ORGANIZATION OF CITY GOVERNMENT.

TUESDAY, January 3, 1905.

The members elect of the city government for the municipal year of 1905, having met for organization agreeably to the provisions of the city charter, the convention was called to order by ex-Mayor Frederic A. Faulkner, at ten of the clock in the forenoon. The oath of office by law prescribed was administered to the mayor-elect, James S. Taft, by Hon. Frederic A. Faulkner, who then introduced him to the aldermen and councilmen present. After roll-call by the clerk, His Honor Mayor Taft administered the oath of office to the following named members of the boards of aldermen and councilmen, to wit:

BOARD OF ALDERMEN.

Ward 1.—HERBERT R. BEALS.

Ward 2.—HARRY T. KNAPP.

Ward 3.—BURTIS L. PARKMAN.

Ward 4.—JESSE B. HYLAND.

Ward 5.—DANIEL E. GORMAN.

BOARD OF COMMON COUNCIL.

Ward 1.—WALTER E. BULLARD.

WALTER R. KIRK.

CALVIN W. FARWELL.

Ward 2.—CLINTON J. SMITH.

FRED F. PAGE.

CLARENCE W. EMERSON.

Ward 3.—GEORGE S. JONES.

CHARLES H. MASON.

JAMES G. HARVEY.

Ward 4.—WORTHEN D. WHITTAKER.

ARTHUR L. WRIGHT.

GEORGE D. GILLIS.

Ward 5.—PATRICK G. TAAFE.

JOHN H. KENNEDY.

PATRICK J. MALLOY.

Prayer was offered by the Rev. Joseph Walther, after which the mayor delivered his inaugural address.

After the prayer and inaugural address, Frank H. Whitcomb, was elected clerk, and Joseph F. Emmons, city messenger, and the councils then adjourned until 7:30 o'clock.

At 7:30 o'clock p. m., the common council organized by the choice of Walter E. Bullard, as president, and Herbert O. Wardwell, clerk.

THE MAYOR'S INAUGURAL.

Gentlemen of the City Councils :

We have assembled this morning for the purpose of taking the oath of office, and mapping out our course for the coming municipal term. We are aware that it is in no sense for individual pleasure or profit, but that the public good is to be our first consideration. Understanding it to be my duty to inform you, so far as possible in this brief address, of the present condition of municipal affairs, and to point out certain matters upon which you may be called to act, let us first look at our financial condition.

FINANCIAL CONDITION.

During the past year, we have paid off the last block of railroad gratuity bonds amounting to \$10,000. We have also paid the entire floating debt, amounting to \$7,776.91, making a total reduction of \$17,776.91 in our indebtedness. The balance of assets over liabilities has increased from last year \$11,383.11. And we have provided somewhat more liberally than heretofore for certain departments. Our tax rate was reduced to \$1.55. The efficiency of the several departments has been fully maintained, and there are no outstanding bills against the city overdue. The city now owes \$70,000 4 per cent sewerage bonds, \$45,000 4 per cent water bonds, \$62,000 3½ per cent water bonds, or \$177,000 all told, due and payable

from 1905 to and including 1917. \$15,000 sewerage bonds due July 1st, next, should be paid from any funds in the treasury not otherwise provided for, and it is included in the recommendation of the finance committee.

HIGHWAYS.

The city has 100 miles of streets and highways to be kept in proper condition. Last year the city councils decided to change the existing policy, and voted to abolish the highway commission, returning to the system so long employed. Early in the spring, I arranged a meeting with the Massachusetts state road commissioners for the purpose of studying methods of road building, particularly respecting the construction and repair of macadam. The superintendent of streets and myself passed a day in discussion, and in riding over different sections of streets of one of the principal cities in Massachusetts which had been treated. This board fully endorsed our method of construction, being the same as employed by them in state work. The only regrettable feature was the expense of securing trap rock for top dressing which we cannot well get here.

The city appropriates \$12,000 annually to do its highway work. It must be somewhat thinly spread to cover 100 miles, but we are doing as well as can be expected until our financial condition will warrant a much larger expenditure for this department.

BRIDGES.

The city has within its limits nearly one hundred bridges which are cared for by the superintendent of streets. As the result of a careful inspection by the super-

intendent of streets and the city engineer we are informed that they are safe, and mainly in good condition. I recommend that as these bridges require renewing the city adopt the policy of using iron or steel to replace those worn out. If we were to adopt this course at once the yearly expenditure would not be excessive, and in a few years our bridges would give us very little trouble or anxiety and the repair account would be greatly reduced.

WATER WORKS, SEWERS AND DRAINS.

I commend to your careful study, the reports of the commissioners and superintendent of water works, sewers and drains on page 180 of the city report. That these large properties are well managed, goes without saying. By the report, you will see that at no time since construction began, has the assessment amounted to as much as last year, the net income from the works having been exceeded in only one instance. And owing to an excellent supply and painstaking management, we have considerable water in store while other communities are less fortunate in that respect.

STREET LIGHTING.

The existing contract with the Keene Gas and Electric Company for lighting the streets of the city expires July 1st the present year. It will be your duty to contract with some party for continuing this service. The expense attending the department is constantly increasing. Today it involves an annual expenditure second only to the highway department. The city is a large consumer of gas and electricity, and wants good service, for which it is willing to pay a fair wholesale price.

FIRE DEPARTMENT.

I am able to speak in the most complimentary terms as to the efficiency of this most valuable branch of our municipal equipment. More than the usual amount of money has been expended the past year in this department; but it was found to be needed. A new hose sled has been purchased for the engine company, the old one having become unsafe from long service. The still alarm service operates to entire satisfaction, and is a great saving in wear and tear of equipment. Lighter chemical extinguishers have been provided, of such capacity however, that men can easily carry them into difficult places. It appears that quite a quantity of hose is needed. I recommend that the matter be fully investigated as to whether or not we can procure a hose which will serve the department longer than the grade we are now using, thereby endeavoring to make a saving in this item.

POLICE.

If I may judge by general expression, the operation of the police department the past year has been satisfactory to the people. The arrests have been more numerous than last year, or during former years; but last year is nothing to be governed by, or to be judged from. People whose business it is to know, inform me that in all the large towns and cities of the state, conditions are the same, whenever any pretense is made toward keeping the streets clean and orderly.

To illustrate, the increase in arrests for the principal cause last year over one year ago, in our city, was 52½ per cent. The increase in ten cities and large towns outside of Keene and Manchester, is 161 per cent. I am not

speaking as to the merits or demerits of existing statutes. I wish to point out that while the arrests in our city have been largely increased, regrettable as it is, the increase in other towns and cities in our state for similar causes has been fully as large as our own.

CITY HALL.

The city owns the only opera house within its limits, and so long as it remains in the business it should furnish the city suitable accommodations. The wisdom of the repairs recently made and the modification of rates are fully shown by the city messenger's report, showing, as it does, that the earnings have increased \$567.00 the past year over the year 1902. The committee on city hall are having the awning over the front walk rebuilt sufficiently strong to support great weight, and are installing appliances in difficult places which, together with other changes, will provide easy and rapid escape in case of fire. The hall is no longer a debt upon the city, and I fully concur with the city messenger that new sittings for the body of the house should be provided; also a place where the seats can be carefully stored when the hall is wanted without the seats upon the main floor.

SHADE TREES.

I am of the opinion that greater care should be exercised in granting permission for corporations to string wires, when it becomes necessary, or will very soon, to do wholesale trimming of shade trees. People whose business it is to do the work appear to lack appreciation of the value of our trees. Private rights of way can be secured in almost every case; and this is being done whenever distance

and expense can be saved to the companies. A short time since, application was made to cut down a dozen well matured shade trees on one of the leading avenues to the city. I am strongly opposed to granting public franchise when such grants permit destruction or injury to that which makes Keene beautiful and famous.

HISTORY OF KEENE.

The long anticipated History of Keene is finished and presented to the public. The work reflects great credit upon those who have been engaged in its production, from first to last. It will prove a welcome visitor in every home whose inmates have a love for the grand old town, and is offered to the people at a price which little more than covers the cost of production.

THE ANNUAL REPORT.

The annual report of the heads of the different departments, giving in detail their operations, is ready for distribution. I recommend it to your careful consideration, showing as it does to the voter and tax payer much more intelligently than I am able to do, the physical condition of each, also where every expenditure is made.

CONCLUSION.

Gentlemen, the management of our municipal affairs has been committed to our hands. Some of us have been called for the third time; we must remember that this call brings additional responsibility. The city does not ask impossibilities from us; but it does ask, and reasonably insist upon a clean, economical, conservative administration, and that we make its business our own.

ORDINANCES AND JOINT RESOLUTIONS

PASSED BY THE CITY COUNCILS IN 1904-05.

CITY OF KEENE.

IN THE YEAR OF OUR LORD ONE THOUSAND NINE HUNDRED
AND FOUR.

LOWELL, MASS., Dec. 13, 1904.

*To His Honor the Mayor and Members of the City
Councils of Keene, N. H.*

I, the undersigned, administrator of the estate of the late Clarissa S. Blodgett of Keene, N. H., desire to pay over to such person or persons as shall be designated by your councils, the sum of one hundred dollars (\$100) to be known as the C. S. Blodgett fund, the interest of the same to be used for the care of lot No. 22, section 1, of Woodland cemetery of Keene, N. H. I am,

Your truly,

MORRIS S. BLODGETT,

19 Grove street, Lowell, Mass.

A JOINT RESOLUTION relating to the C. S. Blodgett fund.

Resolved by the city councils of the city of Keene, as follows:

That, whereas, Morris S. Blodgett, administrator of the estate of the late Clarissa S. Blodgett of Keene, N. H., desires to pay over to said city the sum of one hundred

dollars to be known as the C. S. Blodgett fund, the interest to be used for the care of lot No. 22 in section 1, in Woodland cemetery.

Resolved, That the city of Keene, by its councils hereby accepts said sum of one hundred dollars to be held in trust by said city forever for the above named purpose, and the city clerk is hereby authorized to receipt for the same and deposit said fund in the city treasury, in accordance with Section 6, Chapter VI, City Ordinances.

Passed December 15, 1904.

and that the same be paid from any money in the treasury not otherwise appropriated.

Passed November 2, 1905.

A JOINT RESOLUTION relating to numbering buildings.

Resolved by the city councils of the city of Keene, as follows:

That Engineer Samuel Wadsworth be and is hereby authorized and instructed to affix numbers to buildings

not heretofore numbered, on such basis of frontage as shall seem to him to be best, and record the same by plans in the office of the city clerk.

Passed November 2, 1905.

A JOINT RESOLUTION relating to signs in the highway.

Resolved by the city councils of the city of Keene, as follows:

That Charles L. Wiswall be permitted to erect a sign in front of store No. 15 Roxbury street, and that J. F. Gallagher be permitted to erect a sign in front of his place of business in Petts' block, on Church street, under the direction of the joint standing committee on streets.

Passed November 2, 1905.

A JOINT RESOLUTION relating to exemption from taxation.

Resolved by the city councils of the city of Keene, as follows:

That, whereas, the Lancaster Shoe Co., proposes to purchase and equip a factory, for the manufacture of shoes, formerly owned by the C. B. Lancaster Shoe Company, on Dunbar street in said Keene.

Resolved, That such manufacturing establishment, including the real estate, machinery and stock in trade, and the capital used in operating the same, not to exceed in all the sum of one hundred thousand dollars, be exempt from taxation as to said Lancaster Shoe Co., its successors and assigns, while the same shall be in actual operation for the purposes aforesaid, for the period of ten years from the first day of April, 1906.

Passed November 13, 1905.

To the Honorable Board of Mayor and Aldermen of the City of Keene:

Respectfully represents John P. Rust of said Keene that for the better prosecution of his business on Water street in said Keene, he is desirous of erecting a bridge over and across said Water street between his factory and store-house. This bridge, if permission is granted, will be at least, fourteen feet above said Water street, will be built of iron and of sufficient strength to prevent all accidents, and will greatly enlarge his facilities for transacting his business.

Wherefore he prays your Honorable Body that leave may be granted him to erect and maintain said bridge substantially on the basis of the plan herewith filed.

J. P. RUST.

A JOINT RESOLUTION relating to a bridge over and across Water street.

Resolved by the city councils of the city of Keene, as follows:

That John P. Rust be given license to construct, keep and maintain a suitable iron bridge over and across Water street, to connect his factory and store house, said bridge to be not less than fourteen feet above the grade of said Water street, in accordance with a plan herewith submitted, marked, "Scale 1 in. = 8 feet. Samuel Wadsworth. Aug. 1905," said license to be revocable at any time the city councils may deem it advisable, and it is granted upon the further condition that said Rust agree to indemnify the city of Keene and save it harmless from all damage, cost and expense to which it may in any way become liable by reason of the construction, maintenance and operation of said bridge.

Passed November 16, 1905.

A JOINT RESOLUTION relating to the Rachel C. Woodward cemetery fund.

Resolved by the city councils of the city of Keene, as follows:

That the city of Keene by its councils hereby accepts the sum of one hundred dollars from F. A. Woodward, the amount named in a paper purporting to be the will of the said Rachel C. Woodward, to be held in trust and the income thereof only to be used in caring for her lot in Woodland cemetery. The city clerk is hereby authorized to receipt for said sum and deposit the same in the city treasury in accordance with the provisions of Sec. 6, Chapter VI, City Ordinances.

Passed December 7, 1905.

WATER WORKS, SEWER AND DRAINS.

THIRTY-SIXTH ANNUAL REPORT OF THE WATER DEPARTMENT,
 TWENTY-SECOND ANNUAL REPORT OF SEWER DEPARTMENT,
 EIGHTH ANNUAL REPORT OF THE DRAIN DEPARTMENT,
 AND THE
 SIXTH ANNUAL REPORT OF THE INSPECTOR OF PLUMBING.

BY THE COMMISSIONERS.

To the City Councils :

Gentlemen,—We herewith forward the thirty-sixth annual report of the superintendent of the water department, the twenty-second annual report of the superintendent of the sewer department, the eighth annual report of the superintendent of the drain department, and the sixth annual report of the inspector of plumbing.

The financial account for the year is as follows:

Assessments and arrearages as given to		
the collector,		\$30,795 75
Amount collected,	24,082 17	
Amount of discounts,	4,484 75	
Amount abated,	367 22	
Amount unpaid,	1,861 61	
		\$30,795 75

Earnings for the year are as follows:

Assessments Nos. 71 and 72,	\$23,625 80
Meters,	5,753 46
Cash for stock and labor,	1,626 55
Cash for ice and pasture,	215 00
	<hr/>
	\$31,220 81
Less advance discounts,	\$4,484 75
Less abatements,	367 22
	<hr/>
	\$4,851 97
	<hr/>
Gross earnings,	\$26,368 84
Maintenance,	2,722 95
	<hr/>
Net earnings,	\$23,645 88

The detail report of the superintendent is considered to sufficiently show the generally satisfactory condition of the several departments under our charge, and has our full approval.

Authorized by the board, the superintendent has erected a substantial brick building at Echo lake, to be used for the storage of tools, etc., and afford accommodation for employees of this department while they are engaged in repairs on this portion of the system.

It is the purpose of the board to adopt and carry into execution one of several plans they have under consideration to remedy the unsatisfactory conditions that now exist in connection with the Octagon reservoir; this is not to be understood that we contemplate repairing the reservoir itself, but rather that we are confident that the present waste of water at this point may be entirely avoided, by other methods of connecting the supply.

This can undoubtedly be accomplished without incurring prohibitive expense.

As much of the actual work of the collection of the

accounts of this department now devolves upon the superintendent, and more or less complications arise under the present system, we renew our previous suggestions, that your honorable board give further consideration to the matter of giving the entire collection of water rates into our charge.

While this may apparently indicate a slightly increased cost of this work, we feel that it would be compensated for by prompt collections and also to a certain extent preventing an accumulation of uncollectable accounts.

Respectfully submitted,

N. G. GURNSEY,

G. W. FISHER,

C. M. NORWOOD,

Water, Sewer and Drain Commissioners.

SUPERINTENDENT'S REPORT.

To the Board of Water, Sewer and Drain Commissioners:

The sewers have been thoroughly cleaned and put in good condition for the winter. I would like to impress upon the public that the sewers were not intended to be a receptacle for old clothes, bones, cutlery, tin ware, fish rods, etc., as the above articles tend to cause the department considerable trouble.

Respectfully submitted,

PAUL F. BABBIDGE,
Superintendent.

MACADAM.

Macadam has been laid on the following streets at a cost of 32 cents a square yard: 3,807 square yards on School street, 1,986 square yards on Marlboro street near Main street, 2,165 square yards on Marlboro street near Cole's, making an expenditure of \$2,432.54.

The highway department has deposited with the city treasurer the following sums, to wit:

Rent of city pasture,	\$40 00
Street sprinkling,	1,020 00
Keeping horses for fire department,	260 00
Packing and unpacking hydrants,	9 00
Work for water works, sewer and drain department,	155 19
Gravel sold,	2 90
	<hr/>
	\$1,655 09

I would respectfully recommend:

1st. That the money appropriated for macadam roads next year be expended in repairing the macadam road on Court and Washington streets.

2d. That an iron bridge be built on Water street in place of the old wooden one now there.

3d. That some definite arrangement be made with the electric car company to move the car track on West street from the center to one side.

Very respectfully,

E. A. NIMS,
Superintendent of Streets.

Keene, December 1, 1905.

REPORT OF
CHIEF ENGINEER OF FIRE DEPARTMENT.

To His Honor the Mayor and City Councils:

Gentlemen.—I have to report that the department has responded to sixty-two calls during the past year, sixteen bell and forty-six still alarms.

As per list appended, of fires' origin, losses, etc., you will find that the city has been unusually fortunate as regards losses—the net loss being but \$720—over one-half of which was from brush fires.

There has been added to the department as follows: One pair horses for Deluge hose, fifteen hundred feet of rubber lined hose, one hose sled for Steamer Company, uniforms to the extent of \$125, three dozen mittens.

There is on hand at this date, 7,000 feet of hose, 1,000 of which has given out and has been repaired.

Among the needs of the department I make the following memoranda: Five hundred feet of new hose to keep up with the depreciation, new horses for steamer, new body for sled of ladder truck, fire alarm box on station, rubber coats and boots, painting of station inside and out.

I have watched with much interest the plan adopted this year by the city of collecting rubbish, etc., weekly. I think there can be no doubt that this custom has diminished fires also to quite an extent, and an extension of the system would still further tend to lessen the fire losses.

Extending thanks to your honorable body and to my assistants and members of this department for their co-operation, I remain,

Yours respectfully,

FRED W. TOWNE,
Chief Engineer.

Keene, December 11, 1905.

SIGNALS.

The following signals were adopted by the board of engineers, December 2, 1887, and are still in force.

1. The superintendent has the right to strike one blow upon the bells at any time, to test the circuit; also to ring in one round from any box, preceded by a single blow exactly five minutes after the noon stroke, on Saturdays, for the purpose of testing the boxes.

2. The signal 22 repeated on the bells is to call the firemen to their houses for further orders.

3. Two blows struck upon the bells after a fire alarm is a signal to "limber up," and recalls all firemen and apparatus to the engine houses, unless especially detailed for duty.

4. In case of a serious fire the engineers may cause a second alarm to be sounded from the nearest box. A second alarm is given by striking ten blows, followed by the box number.

5. As box 9, which is located on city hall, is still likely to be used for a general alarm, and to be pulled for a fire which is not in or near the square, the engineers will ring in a second alarm or four full rounds from this box, if there is fire of any magnitude near the square.

6. The old alarm on city hall will only be rung between 9 p. m. and 6 a. m., except in case of serious fire.

7. Arrangements have been made with the Beaver Mills Co., and alarms of fire will be given on their whistle same as by the bells.

GENERAL RULES.

Firemen as well as citizens should familiarize themselves with the following rules for giving alarms of fire.

1. Never pull a box for a fire seen at a distance.
2. Never pull a box while the alarm bells are ringing, nor until a box has completed its four rounds. Two boxes cannot operate together and neither will work if two are pulled at the same time. Never pull two alarms or two boxes for the same fire. The engineers will sound second alarms if necessary.
3. To ring in an alarm, break the glass in the key box and open the outside door with the key. Pull down the brass crank, seen inside, *till it stops*, then let go. Then let the box alone. The clock will be seen or heard to be running, and the alarm will follow in half a minute or so. Close the box and remove the key.

Remember that the firemen will come directly to the box which has been pulled, and be sure that someone stays at the box to direct them to the fire.

TELEPHONE ALARMS.

Box 22, which is located in the central telephone office, is the box which will be pulled to sound all alarms of fire sent in by telephone. When this box is pulled, firemen and all others can ascertain the location of the fire from the telephone office.

Do not send a telephone alarm if there is an alarm box within reasonable distance. Box alarms are always the surest and best. Telephones can seldom be used during thunder showers; the boxes can always be used.

To send in a telephone alarm, call the central office. Tell the operator slowly, first, the ward, then the street and house where the fire is situated. The operator will repeat, "Fire, ward so and so, such street or house." Answer, "all right," if you are correctly understood. If the fire is in South Keene or West Keene, give the fact instead of the ward number. The operator will then leave the telephone and sound the alarm.

REPORT OF SUPERINTENDENT OF FIRE ALARM TELEGRAPH.

To His Honor the Mayor and Gentlemen of the City Councils:

The fire alarm system, which is in its usual good condition, comprises twenty miles of wire, twenty-nine pairs of magnets, a battery of one hundred and forty cells, twenty-seven fire alarm boxes, two public alarm bells and several private call bells for firemen. An additional box has been placed on the Elliot City Hospital building, numbered 5, and I recommend that one be installed at the fire station the coming season.

I also recommend that four of the old boxes, numbers 52, 53, 72 and 13, be remodeled the coming year, those which have been made over and contain improvements at an expense of about one-half the cost of new boxes, having proved very satisfactory in their operation.

The public should become familiar with the instructions in relation to sending fire alarms and the location of boxes, set forth in the chief engineer's report.

JOSEPH F. EMMONS,

Superintendent of Fire Alarm Telegraph.

REPORT OF
TRUSTEES OF KEENE PUBLIC LIBRARY.

To the Honorable Mayor and City Councils :

The trustees of the public library submit the following report :

Since last May, when the work of recataloging was finished, the librarian has been able to give more attention to the general library work, and we are pleased to have noted the benefit this has been to the public, in the care of the books, the reference work and the increased circulation.

The trustees feel keenly the necessity of a larger book or stack room, fireproof and suitable for the permanent use of the library, and for the safe preservation of its many valuable books and papers, more strongly at this time than ever before as there is not enough room to accommodate the growth of another year, and we earnestly recommend this need to your earliest attention.

In March the trustees received the resignation of the janitor, Mr. Ira D. Gates, who has faithfully discharged his duties since the library occupied the Thayer building. The position has since been filled to their satisfaction by Mr. T. Jewett Locke.

The trustees have held regular quarterly meetings on the second Tuesday of the month since last January, and at these meetings are glad to receive any communications from the library patrons which may enable them to further accommodate the public.

The trustees again notice the exhibitions of pictures of the Library Art Club, which are so much enjoyed, as being continued through the generosity of the same interested friend.

For further information and statistics we refer you to the librarian's report hereby appended.

MARY A. A. PRENTISS,
Keene, December 5, 1905. Secretary.

REPORT OF THE LIBRARIAN.

To the Board of Trustees:

The report of the librarian for the year ending December 1, 1905, is hereby submitted:

The statement of the general financial condition of the public library at the close of the year 1905 can be seen from the last monthly statement submitted by Mr. Kingsbury; also the exact balance of book money. The balance of book money is I believe over \$370, a sum sufficient to replace some of the sets of standard works so badly worn.

Special attention has been paid to the binding during the past year, about \$95 having been spent for this purpose, and the general appearance of the shelves has been improved by the fresh covers.

During the past year 672 volumes have been added to the library, 541 by purchase and 131 by gift.

The gifts include Dr. Elizabeth B. Reed's medical library of 71 volumes, also the pictures of the four prominent authors represented in her gift, Spencer, Huxley, Darwin and Tyndall; a few of the other gifts were personal and the remainder government and state publications.

A few new magazines have been added to our list in order to cover as far as we are able the various demands of our readers, and so make our periodical department as useful as possible.

Our circulation shows an increase of 2,193 over that of last year, also a slight increase in the number of cards issued to borrowers.

The pictures from the Library Art Club, have been varied and attractive, and have been greatly appreciated by those who are interested in this line.

The work of recataloging was completed in May of this year, and has since then left more time for reference

work. Reference shelves has been set aside for the teachers in their school work when they have wished, and any other department of school, club or church work will gladly be allowed the same privileges, if they make their wishes known. Since the cataloging has been completed, an assistant has been allowed, time not to exceed thirty hours a week. Miss Sherman acting as first, and Miss Bessie McGregor as second assistant.

A vacation of three weeks was allowed the librarian, she furnishing her substitute during her absence, and two weeks of the same were taken during the month of August.

On looking back over the past year, so prosperous and filled with its varied pleasures, I regret to note that your librarian has necessarily been absent from her duties about four weeks on account of illness. It has however, been her aim at all times to see that her work has in no way suffered in the end. During her absence, Miss Sherman, assisted by Miss McGregor, carried on the regular work in her usual competent manner.

We have in a brief way reviewed the records of the past year, and will for a moment be more progressive and look to some of the needs of the coming year.

The following are merely suggestions, not requests, to be considered by the board of trustees at their pleasure.

As our library increases in size, so it has increased in bequests and material gifts, and, so in proportion must it advance in usefulness, and facilities necessary to this end.

As always the needed children's room awaits our earliest possible thought, and our overcrowded shelves in the stack room are a constant reminder of the need in this line. These are, of course, questions which need time and thought to bring about satisfactorily. In the meantime there are lesser, but quite as important questions to be considered.

We want to make our library attractive, and to do this we must, as in other progressive institutions, constantly put into use new ideas. When a class in school, a

club, or an individual, is interested in a special subject, we must have time to prepare a bibliography for them, and so get all the library's material on the subject together.

We want to make reading lists to be published in the paper periodically, and put into use many other devices necessary to bring the otherwise latent material before our readers.

It has been proved that these things are impossible with the regular work, when allowed an assistant only a part of each day. Would not the gain more than outweigh the extra time?

Another question, which as always confronts us, but is perhaps brought more forcibly before us since the failure of the Booklover's library, is the subject of fiction.

Surely a public library, not a fiction circulating library cannot afford to spend its book money, and fill its already crowded shelves with this late fiction, by unknown authors, that is read today and forgotten tomorrow.

Some readers suggest a hired circulating library, as the Bodley club, saying it has been tried in other libraries and with success.

The Bodley club is a library on a wholesale plan; that is to say the books are rented in bulk to individuals and to institutions.

The parties renting the books let them out to patrons on whatever terms they choose, usually on the plan of two cents a day. The rates of rental vary from \$25 to \$600, according to the number of books taken.

This plan has been tried in some twenty different libraries with varied success, but this of course takes time and room, both of which are items to be considered carefully.

Respectfully submitted,

MAUD E. BLOOMINGDALE.

REPORT OF CITY MESSENGER.

To His Honor the Mayor and Gentlemen of the City Councils :

The collections for use of city hall for the year ending November 30, 1905, amount to \$1,683.20.

Orchestra lights have been installed during the past year and modern seats have been ordered by the committee to be substituted for the unsightly and uncomfortable settees now in use.

The old settees have been used by the public for gatherings outside of city hall, and provision should be made at once for the sale or storage of such number as may be found safe and fit for use, as no room in the city hall building will furnish adequate space for them when the new chairs arrive.

There have been two deaths during the year, organic heart disease, ovarian cyst.

The following cases have been under treatment: Organic heart disease, two diphtheria, three measles, cardiac, asthma and rheumatism, anaemia, rectal hemorrhage, four influenza, teething baby, scabies, epilepsy, two general debility, two gastritis, melancholia, tonsilitis, varicose veins and eczema, metrombagia, chronic delusional insanity.

There have been attended at the police station, one case of exposure, sprained ankle, four alcoholism, enlarged liver, orchitis, insanity, incised wound of forehead. I have made, house calls 82, office calls 11, and hospital 72.

Respectfully,

CHAS. S. WALKER.

November 30, 1905.

REPORT OF BOARD OF HEALTH.

To the City Councils of Keene :

In submitting our yearly report as health commissioners for this city, we would say that there have been more matters which have come under our care and observation, requiring our attention, than usual. And although in some things it may seem that the duties of this office ought to be less each year, as things become more settled as a city, yet it continues to grow in importance as the years go by.

In addition to the usual duties required of us heretofore, the last legislature passed a law requiring local boards of health in every city and town, in cases of death from pulmonary consumption, to cause the infected premises to be thoroughly disinfected and cleansed; the work to be carried out by methods endorsed and recommended by the state board of health. Not only does the law require the local boards to do this work, but the state board is anxious to know that this is faithfully attended to. There have been several cases of death from pulmonary consumption and tuberculosis reported to us during the year, and in every case the premises have been thoroughly disinfected and cleansed as far as it is possible to do it, as the law requires.

During last winter and early spring there was an unusual epidemic of measles in the city. There were reported to us as many as 557 cases in all. From those cases there were reported only two deaths, and the death of one of those was reported as pneumonia, resulting probably from

the measles. All of those cases as they were reported to us, either by the physician or some member of the family, were then immediately reported by this board to the state board, and the same cases were reported weekly to the state board as long as each person was sick, and the disease lasted. This is true in cases of scarlet fever and diphtheria.

In the past twelve months there have come to this board reports of 12 cases of scarlet fever as existing in the city, and from these cases there has been no deaths. Also 5 cases of diphtheria have been reported and one death from that disease. The case of death from the last named disease seemed to be of a malignant type, and in this case the patient died before this board was notified of the sickness.

In all cases of scarlet fever and diphtheria a most rigid quarantine was enforced and insisted on, which must have checked the diseases, confining the same to the family where it originated or it was discovered. By that means the same was prevented from spreading to other families. In many cases where quarantine is required, the families are of moderate means, and the needs of the inmates of the household are such as to call for help to be furnished to them temporarily, during the continuance of the disease and the isolation of the family. The law provides that it shall be our duty in case of quarantine in needy cases to furnish means of subsistence for them during the continuance of the quarantine. We have attended to this branch of our duty in as prudent a manner as possible, as in many of those cases the families are large, and their stock of provisions is generally low.

Whatever we have done to guard against the spread of malignant and contagious diseases, we have acted on the principle that if the same could be confined and not allowed to become epidemic, it is the cheaper in the end for the public, although the family might be assisted to a limited extent.

We have also at the request of the state board, furnished samples of food and supplies from the different stores and markets in the city, and milk from all of the different milk men who are selling in this community, that the same could be inspected and analyzed by the state chemist at Concord. It is a fact, that as a result of the food inspection department, there is less impure food of all kinds sold in the stores and markets of the city, and this is of great importance to the public generally.

One result of the labor in this direction has been to begin a prosecution for selling milk not up to the standard required by law, and although a person may be selling ignorantly and with no intent to deceive, yet he is not permitted to sell unless he can furnish such a quality of milk as the law says he shall sell. And should any person outside of the state ship food into this state to the dealers here to be sold again, for the purposes of consumption, if the goods on inspection are found to be impure, such dealer or firm are notified that his goods are not up to the standard required by law. A great change in the quality of some goods, at least, has resulted from this.

We have also investigated many cases and complaints where buildings were not connected with the public sewer, and have caused such connections to be made; as well also as numerous cesspools, we have caused to be constructed, in those cases where sewer connections could not be made.

We have also investigated many other complaints where other nuisances were said to exist of a different nature, but just as bad in their way, and in all cases where a remedy was possible, one has been provided; and then there are others where it has seemed there was no remedy and no definite action therefore was taken.

It has been customary in years past, for persons to use certain places about the city, as a dumping ground for decayed fruit, vegetables and other things, where such

have been left to decay and thereby become a nuisance, as well as being very offensive and unsightly to all persons who happened to be in that vicinity; this practise has been stopped, the city having provided a place for such refuse matter.

We would take occasion at this time to call attention to the law requiring every physician who attends upon any person having any malignant, pestilential disease, to immediately report the same to the local board of health, and if such sick person has no physician, then it is the duty of some member of the family to give such notice. This law applies to cases of measles as well as the more malignant type.

It would in many cases be of great help, not only to this board, if it was done in every case, but might prevent the spread of the disease, if done at once in its earliest stages.

Keene, December 1, 1905,

REPORT OF SUPERINTENDENT OF CEMETERIES.

To His Honor the Mayor and Gentlemen of the City Councils:

The undersigned presents his report for the year ending November 30, 1905, as follows:

This year has been one of repairs rather than one of additions in this department, with the exception of the setting of fifty shade trees in Greenlawn where shade is greatly needed, and the acquirment of a "cribbing device" the use of which in loose soil, or to prevent the caving of the earth from adjacent graves is proving of great value from an economic standpoint, and its sanitary value can hardly be overestimated when used in opening graves in lots that have become closely filled, also a more tidy appearance is possible in many cases by its use.

Repairs have been made on the water pipes, avenues and paths, and many old and neglected lots have been improved, trees have been trimmed or removed, as seemed best. This with the general care given the cemeteries as a whole, and the special care of lots has made a busy year.

My receipts for the year are as follows:

REPORT OF CITY SOLICITOR.

To the City Councils of Keene :

During the past year no suits have been brought by or against the city. A claim of George C. Young for damages resulting from his falling from a defective sidewalk at the corner of Beaver street and Damon court has been settled by compromise without suit.

The suit of the Ashuelot National Bank against the city, which was brought to obtain title to the Perry place north of the city hall, is now in the Supreme Court. A decision was recently rendered, holding in effect that certain questions involved in the case should be first decided by the Superior Court before the Supreme Court would make a decision upon the merits of the controversy. Both the bank and city have asked for a rehearing in the Supreme Court. The only positive assertion that can at present be made in regard to the suit is that its outcome is doubtful.

Respectfully submitted,

JOHN E. ALLEN,
City Solicitor.

December 1, 1905.
